

## VISION OF SAEROUN CHURCH

### Into the Market Place

Saeroun Church trains Christian professionals and leaders, who can glorify God working in the middle of the world and organize "Clapham Sect" of the 21st century Korea. For this, all church leaders lead evangelical small groups and actively take part in various conferences and training programs as trainers or trainees. By doing so, they become bridges to connect the church and the world.

### Into the Nations

Saeroun Church provides bilingual worship services and ministry works that embrace various global cultures. To do so, Saeroun Church cultivates leadership of overseas Koreans or people of foreign mother tongues, empowers Koreans living around the world, and connect them. For this, Saeroun Church provides online system for their use, and train the saints to let them realize God's way in the nations.

### Into the Future

In an effort to keep pace with the global generation, Saeroun Church runs Sunday School programs and youth ministry works in both Korean and English. The church actively runs special spiritual trainings for children studying abroad and also various outreach programs. Through online video chatting on the church online system and blogs, children both at home and abroad can reach out to small groups for help. The church also developed "ladder-type" mentoring programs that connect different age groups and also family programs.
